Materials engineering and nanotechnology

Ma recherche

Je recherche tout type de contrat, sur toute la région PACA, dans le Batiment.

Formations

06/2021 : Bac +5 à Aix Marseille Université

Master 2 Materials and Nanomaterials Engineer Materials characterization, physico-chemical characterization of materials, scanning electron microscopy, transmission electron microscopy, Raman spectroscopy and X-ray diffraction.

06/2020 : Bac +3 à Aix Marseille Université

Master 1 Materials and Nanomaterials Engineer Physics-Chemistry of Materials, Electrochemistry, Nanoscience and Nanomaterials, Structure, Thermodynamics, Mechanical Properties and Behavior of materials.

06/2019 : Bac à Aix Marseille Université

Licence Physique-Chimie

Expériences professionnelles

09/2021 - 11/2022 :

Materials Research Assistant Engineer chez Cnrs sur Marseille

Document materials used in experiments. Ensure that materials received are in line with expectations. Use modeling (CAD) and simulation techniques to predict material properties during experiments. Present progress and results at internal meetings and technical conferences. Participate in the writing of scientific articles. Use of a test bench and drafting of specifications.

09/2020 - 06/2021 :

Assistant Research Engineer chez Institut De Systèmes Neuroscience sur Marseille

Working on the electrical characterization of nanomaterials.

Langues

Français (Oral : maternelle / Ecrit : expérimenté), Anglais (Oral : courant / Ecrit : intermédiaire)
