Rémunération : a étudier
Secteur : Batiment

Formations

12/2018 — Bac +5 — Ghent University
Master of Science in Computer Science Engineering Thesis on fake news detection using neural networks
12/2016 — Bac +3 — Ghent University
Bachelor of Science in Informatics

Expériences professionnelles

07/2023 - à ce jour — Data Engineering Manager
Leading the data engineering team, by organising development and enabling team members.
07/2022 - 07/2023 — Senior Data Engineer
Rebuilding entire Heroes data lake on AWS, using Airflow (on ECS), AirByte, PySpark (on Glue), DBT.
01/2022 - 07/2022 — Business Intelligence Engineer
Building ETL pipelines at the basis of automated reporting. Delivering insights enabling objective decision-making for pricing, promotions and private brand teams.
01/2020 - 07/2021 — Data Engineer
Implementing new score calculation methodologies in production. Redesign of the internal security master. Building bespoke scoring methodologies for various clients. Mentoring junior team members in a growing team.
11/2018 - 01/2020 — Data Engineer
Splitting up a monolith architecture into multiple containerised micro-services, hosted with Kubernetes on Google Cloud. Creating a data loading pipeline for 10+ data providers, hosting the resulting data in a cloud-based PostgreSQL database. Setting up a scheduling system based on Argo, to control multiple data loading and calculation workflows.
02/2018 - 10/2018 — Quantative Researcher
Creating a contribution framework: system that calculates the effect of input changes on the resulting score. Partnering with NGOs: collecting raw pdf data and extracting relevant quantifiable input metrics using various NLP techniques. Automating several analyses, later sold as main products: Corporate Deep Dive and Portfolio Screening.
