Expériences professionnelles

01/2023 - 05/2023 :

Production Manager chez Aramys Group sur Oudhref (60)

Manage the production of 8 production lines according to schedule. Train workers according to workshop requirements. Produce production reports. Ensure compliance with audit criteria: cleanliness, safety equipment, workshop organization. Manage the workforce according to absences and export emergencies.

08/2022 - 08/2022 :

Advanced training chez Z Confection sur Sousse

Monitoring the scrap rate and proposing an action plan to minimise it. Monitoring energy costs and recommending areas for improvement. Contributing to the implementation of the GOTS standard.

08/2022 - 08/2022 :

Initiation internship chez Its Gaaliche sur Monastir

Discover the codes, culture and workings of a company. Analyse customer requirements. Help to reproduce the standard sample in accordance with the specifications. Participate in handling customer complaints.

03/2022 - 07/2022 :

Engineering internship chez Gemtex sur Roubaix

State of the art on the lifespan of textile products. List the parameters to be developed for each process.

Produce the samples (woven structures and their composition yarns) selected on the basis of the experimental plan. Test the quality of the products, set up the laboratory protocol (selection of tests, preparation of samples, performance, analysis). Analyse the influence of process parameters on the quality of the finished product.
