Electrical engineer | management & consultancy

Ma recherche

Je recherche tout type de contrat, dans toute la France, dans le Batiment.

Formations

12/1993 : Bac +5 à Bonch-Bruevich State University of Telecommunications
Master of Engineering in Electronics

Expériences professionnelles

01/2020 - à ce jour :

Solar Energy Consultant chez Freelance

Led implementation of over 3 MW solar energy projects in Lebanon, including design, planning, procurement, and commissioning. Provided consultancy in market assessment, technical studies, training, and energy management solutions.

04/2012 - 10/2020 :

Commercial / Customer Services Manager chez Advance Engineering And Management Services/debbas Group

Managed 18 utility distribution centers serving ~500,000 subscribers under a \$800M PPP project. Implemented SOPs, CRM plans, and KPIs, doubling cash flow, reduced the non-technical losses by ~60% over 4 years. Supported bilateral projects (UNDP, NGOs) and led turnkey PV solar installations.

01/2008 - 04/2010 :

Power Sector Consultant chez Needs - Mv Decon (world Bank Project)

Supported the strengthening of capacity of the Ministry of Energy and Water to Implement Power Sector Policy Reforms; sector liberalization, restructuring, regulatory authority establishment. Contributed to feasibility studies aimed at improving production, transmission, and distribution systems.

10/2007 - à ce jour :

Instructor - Electrical Engineering chez Bathloun Technical Institute, Mehe sur Bathloun

Delivered theoretical and practical instruction in electrical systems and electronics for LT/TS and secondary-level vocational students. Contributed to curriculum development and mentoring of over hundreds of students.

06/2005 - 02/2012 :

Team Leader - Electrical Distribution Services chez Lina Matta Establishment

Oversaw outsourcing services for ~160,000 electricity subscribers: metering, customer service, and revenue collection. Supervised construction and field operations for MV/LV distribution projects.

08/1995 - 05/2005 :

Senior Electrical Engineer chez Bab International - Electricity Of France (edf)

Led site teams on MV/LV electrical installations and quality control for major utility projects. Managed technical

documentation, procurement, and construction monitoring.

09/1994 - 06/1995 :

Site Engineer chez Bouygues International

Supervised rehabilitation of MV/LV electric network project, maintained documentation, enforced safety protocols, and coordinated site activities.
