Zone : PACA
Mobilité : sur toute la région
Rémunération : a étudier
Secteur : Batiment

Formations

12/2026 — Bac +5 — Université Côte d'Azur
Master of Science, Complex Systems Engineering (Engineer for Smart Cities track)
12/2019 — Bac +5 — Ajayi Crowther University
Master of Business Administration, Human Resource Management
12/2014 — Bac +5 — University of Benin
Bachelor of Engineering, Computer Engineering (Second Class Upper)
10/2007 — Bac +2 — NAR Technologies Limited
Diploma, Computer Engineering

Expériences professionnelles

08/2026 - à ce jour — Operation Engineer
Carry out technical studies for the continuous optimisation of industrial processes and monitor sensors on industrial equipment to support maintenance decisions.
04/2026 - 08/2026 — Autonomous Mobility and Smart City Systems Researcher (Internship)
Managed a research platform's network and sensor integration and workstation side tooling; administered Linux environments. Wrote technical documentation of network architectures and incident resolution procedures for the team knowledge base.
01/2026 - à ce jour — Freelance Network and Security Engineer
Deliver day to day network and security operations for client environments: firewall administration, VPN management, troubleshooting, incident response and change implementation. Diagnose first and second level connectivity issues for end users and analyse incidents to identify root causes, escalating and documenting as required.
10/2022 - 12/2025 — IP Security and Cybersecurity Engineer, Level 2 and Level 3 Support
Provided Level /2 and Level /3 escalation support for network and security infrastructure serving over 111 /million users, diagnosing and resolving incidents under strict SLAs. Administered firewalls, VPN, IDS/IPS, load balancers and anti DDoS platforms; performed preventive maintenance and compliance checks. Managed software lifecycle, patching and OS upgrades of security platforms; enforced IT security policies and led audit activity. Monitored infrastructure with Zabbix, SolarWinds, Grafana; automated diagnostics with Python/Ansible. Handled ITSM tickets, vendor coordination and technology watch.
11/2021 - 09/2022 — Senior Team Lead, Core Network and Performance
Led eight IP engineers managing more than 300 enterprise Layer /2 and Layer /3 VPN links in production, ensuring 24 hour availability. Provided second line support to NOC teams, upgraded firmware on routers, switches, firewalls and wireless controllers, and interfaced with third party carriers. Authored Level /1 incident playbooks that reduced mean time to resolution.
02/2021 - 10/2021 — Network Support Engineer, IP/MPLS and LAN/WAN
Administered security platforms, supported Windows and Linux systems, and coordinated a team of twelve engineers. Performed Acceptance Test Procedures on MPLS, LAN, WAN and security nodes; acted as sole Cisco RMA contact for Western Nigeria; trained new engineers.
10/2015 - 01/2021 — Senior Network Support Engineer, IP/MPLS and LAN/WAN
Provided on site and remote support in MTN data centres and equipment rooms; applied security and compliance standards across the production network. Led twelve engineers; wrote audit and compliance documentation; performed data wiping of computers and other IT equipment during replacement and

decommissioning. Oversaw data centre upgrade (2020) with acceptance testing, racking and configuration of Cisco ASR 9910/9808 routers and 50 Nexus switches.

08/2015 - 10/2015 — Technical Network Support Engineer

Installed computer hardware, software, printers and peripherals; performed data wiping of computers and other IT equipment. Ran daily system monitoring and backup procedures to protect data availability and integrity.

Langues

English (maternelle), French (courant)

Atouts

Servers and systems (Windows Server, Linux, installation, integration, patching, backup), Networks and telecoms (TCP/IP, LAN/WAN, VLAN, routing, Wi Fi, DHCP, VPN, VoIP), Security (firewalls, IDS/IPS, access control, anti virus, vulnerability scanning, hardening), Monitoring and incident management (Zabbix, SolarWinds, Grafana, Elastic, ITSM ticketing), User support (on site & remote, onboarding, training), Standards and documentation (procedures, compliance, architecture docs), Suppliers and equipment (vendor management, RMA, commissioning), Scripting (Python, Ansible, Bash), Leadership & team coordination, Attention to detail, Cross department collaboration, Discretion and confidentiality
