Formations

12/2026 — Bac +5 — Audencia Business School

Joint MSc — Management of the Energy Industry 30 ECTS, 3rd in cohort — strategic management, financial analysis, project structuring, stakeholder engagement, M&A. Degree requirements completed; conferral expected December 2026.

01/2026 — Bac +5 — IFP School

MSc — Energy Technology Economics & Management (ETEM) energy economics, energy systems & power-market modelling, project finance, econometrics (EViews), energy transition governance, carbon pricing mechanisms. Coursework complete; thesis pending.

11/2019 — Bac +5 — Pan African University (PAULESI) / University of Ibadan

MSc — Medicinal Plant Research & Drug Development Distinction, CGPA 4.70/5.0. African Union Scholarship; peer-reviewed research publication.

05/2015 — Bac +3 — University of Port Harcourt

BSc — Biochemistry, First Class Honours CGPA 4.50/5.0. Nigerian Agip Oil Company (ENI/Agip) Undergraduate Scholarship.

Expériences professionnelles

01/2022 - 12/2026 — HSE Investment Advisor

Conducted structured investment and budget analysis for 22 upstream assets, including 15 OMLs and 7 OPLs, managing an aggregate budget exposure of approximately $110 million with average allocations of $5 million per asset. Reviewed 8 Field Development Plans, assessing operator proposals such as the Owowo FDP from ESSO/ExxonMobil, focusing on budget considerations, performance, compliance, and environmental governance. Performed HSE-focused evaluations of development plans, emphasizing environmental management and adherence to applicable regulations and governance requirements. Engaged in upstream regulatory-reform initiatives, analyzing emerging fugitive gas emissions management requirements and their implications for regulatory compliance. Coordinated with NNPCL teams, government entities, and international operators like ExxonMobil and Chevron on investment, HSE, and asset-performance matters. Contributed to multidisciplinary initiatives involving gas transportation, flow-station infrastructure, and gas monetization, aligning upstream asset needs with broader gas value-chain strategies.

01/2020 - 12/2022 — Gas Metering Operator (Trainee)

Monitored gas infrastructure operations across four metering stations, ensuring compliance with operational and regulatory requirements for major off-takers in the Eastern Bloc of the Nigerian Gas Pipeline Network. Validated metering data and supported operational reporting, enhancing accuracy and reliability for gas-fired power-generation and fertiliser plants. Gained hands-on experience with SCADA-based monitoring and gas measurement, contributing to effective management of gas network assets.

01/2019 - 12/2020 — Assistant Lecturer, Biochemistry

Delivered undergraduate lectures and laboratory demonstrations, designed assessments, and provided structured feedback to enhance student learning and communication.

Langues

English (maternelle), French (commerciale)

Atouts

Power-market analysis, Energy systems modelling, Energy markets, VBA, Power BI, GAMS, EViews, Energy transition, Carbon pricing, Business plan, Regulatory monitoring, Upstream investment governance, Gas transportation & metering, Feasibility study, DCF Valuation, Flow-station infrastructure, Gas monetisation, Internal Rate of Return (IRR), DSCR, Energy law, CAPEX analysis, Environmental governance, PPA/tariff analysis, Fugitive gas emissions, Investment review, PSC frameworks, Portfolio monitoring, Government/ regulator engagement, International operators, pandas, NumPy, SciPy, Python (Pandas, NumPy, SciPy, PuLP), PuLP, Budget analysis, Cost analysis, HSE regulatory watch, Regulatory compliance, Operational coordination, Gas networks, Operational reporting, SCADA, Assessment design, Strategic steering
