Master’s in E-Business Management
12/2014 — Bac +3 — University of Craiova, Faculty of Economics and Business Administration
Bachelor’s in Informatics and Economics

Expériences professionnelles

03/2022 - 12/2022 — Senior Software Engineer

Own technical design and end-to-end delivery of backend services, Azure integrations, and automated workflows for an enterprise application testing and modernization platform. Designed and delivered application package onboarding, testing, and orchestration workflows, integrating enterprise formats and platforms including SCCM, MSIX, VMware AppVolumes, FlexApp One, and PSADT. Led the migration of 160+ projects from legacy .NET Framework/.NET Core versions to .NET 8, upgrading dependencies and resolving compatibility issues across a large codebase. Designed and implemented centralized SSO with Duende IdentityServer, Microsoft Entra ID, workspace-based identity integration, and authentication for React applications via a BFF architecture. Built centralized logging with Serilog and the ELK Stack, reducing investigation time from up to one day to seconds. Contributed to cloud modernization and delivery automation, integrating Azure VMs, Storage, Key Vault, and App Configuration; developed Azure Marketplace deployment solutions and improved CI/CD workflows. Designed and implemented Intune Ring Zero validation using Microsoft Graph API, improving workflow resilience with retries, failure isolation, and diagnostics.

12/2014 - 03/2022 — Senior Software Developer / Team Lead

Designed and developed enterprise applications across retail, healthcare, asset management, fleet monitoring, and HR. Co-designed and implemented the fourth generation of the MyScan retail mobile application, including backend APIs and barcode scanner integrations. Led a technical proof of concept for legacy application modernization that helped secure a multi-year contract worth over €1.5 million. Mentored developers and contributed to architectural decisions, code quality, documentation, and development practices across teams. Technologies used: ASP.NET MVC, Xamarin, Angular, Kubernetes, JavaScript, React, SQL Server.

01/2012 - 11/2014 — Junior Software Developer

Contributed to an ERP migration from Visual FoxPro to Delphi; built administrative features and tax-authority synchronization that reduced registration of customer and partner records to approximately five seconds.

Atouts

C#, .NET, ASP.NET Core, REST API, Entity Framework, Microsoft Azure, Azure DevOps, CI/CD, Virtual Machines, Azure Blob Storage, HashiCorp Vault, App Configuration, Software Design, Distributed Architecture, System Integration, SOLID principles, Unit testing, Integration testing, Duende IdentityServer, Microsoft Entra ID, SSO, Backend for Frontend (BFF), SQL Server, Transact-SQL, Elasticsearch, Logstash, Kibana, Serilog, JavaScript, React, Claude, Cursor, OpenAI Codex, SCCM, MSIX, VMware AppVolumes, FlexApp One, Internal functional analysis, Microsoft Graph API, Intune Ring Zero, Leadership, Mentoring, Federated Identity Management, ELK Stack, Microsoft Intune, Barcode scanner, Proof of Concept, ASP.NET MVC, Xamarin, Angular, Kubernetes, ERP Migration, Administrative management
